Septemb

Our international operations consist of Cuproquim de Mexico, as well as exports of Helena's proprietary spray adjuvants to markets in Latin America, Western Europe, Australia, Asia and the Middle East. In addition, we coordinate numerous international business activities through our parent company, Marubeni America Corporation, the U.S. unit of Marubeni Corporation, one of the largest trading companies in the world.

Cuproquim de Mexico became part of Helena in 1994. H in Mexico City, it is a major producer and markete oxychloride, copper hydroxide and basic copper used th world.

About 80 percent of Cuproquim's copper fungicide : international markets. This makes the company one o exporters of copper fungicides in Mexico.

Within Mexico, Cuproquim distributes a wide range of agric products - herbicides, insecticides, proprietary copper fung fungicides from other producers. Helena's proprietary proc represented and marketed in Mexico by Cuproquim.
